Automatic Level Packs Powerful Performance In An Affordable Package

From the company that's the worldwide leader and pioneer in optics and positioning technology, comes Topcon's AT-24A Automatic Level. It's ideal for construction and surveying contractors who demand the highest levels of accuracy, reliability and robust performance at the lowest possible cost.

Packed With Features

- Powerful telescope with 24X magnification provides very sharp and bright images
- 1.4 inch/36 mm clear objective aperture
- Air-damped compensator ensures absolutely precise line-of-sight settings
- Quick, easy and convenient focus control
- Short focus distance of 2.6 feet/0.8m for working in close or cramped quarters
- Water-resistant, long-lasting, impact resistant construction
- Clampless Horizontal Adjusting System
- Two Year Warranty

Built-In Compensator Checker

To keep you productive with accurate results, the AT-24A has a built-in compensator checker function to confirm whether or not the pendulum is stuck. Just press the button that's conveniently located under the lens, and you're ready to work in a fraction of a second.

If you're looking for a versatile, general purpose, automatic level that's attractively priced, look no further than Topcon's AT-24A.

SPECIFICATIONS

AT-24A

Standard deviation of 1km double run leveling	±2.0mm
Telescope	
Image	erect image
Magnification	24X
Clear Objective aperture	1.4 in (36mm)
Short focusing distance	2.6 ft (0.8m)
Multiplication factor (Stadia Ratio)	100
Additive constant (Stadia Constant)	0
Compensator	
Working range more than	±15'
Setting accuracy less than	0.5"
Others	
Sensitivity of circular level per 2mm run	10'/2mm
Metal circle	360°
Graduation interval of Hz metal circle	1°
Net weight	4.4lbs (2kg)
Operating Temp	-30° – 50°

_ Depending on staff and levelling technique.
