New

Nikon "Nivo"

"M" series

**Reflectorless
Total Stations**

Nivo "M" series

NIVO™ M Series

- High quality Nikon optics
- Intuitive powerful software
- Fast, accurate EDM
- Prism and reflectorless measurements
- Easy-to-use keypad
- Hot swappable batteries
- Compact, rugged, and lightweight
- Cable-free Bluetooth®
- Optional laser plummet

Nikon's next generation total station is Nivo and it is available in two exciting lines: the Nivo C Series and Nivo M Series. Both of the Nivo series are the absolute leaders for go anywhere measurement tools. Compact in size and lightweight, they are convenient to carry over long distances. All Nivo models are supported with legendary Nikon high clarity optics, allowing clearer images in bright and low light conditions, making measurements easy and reducing eye stress.

The fast, long range EDM measures in both prism and reflectorless modes. Measure precisely to objects up to 300 m away without the need for a prism*.

Nivo M Series models support Bluetooth communications to external data collectors. In addition all models come standard with a traditional optical plummet which can be upgraded to a laser Plummet. The Nivo^{2M} features dual displays.

Nikon has combined simplicity and quality together in perfect harmony to produce the Nikon M Series. These compact and efficient products use a field-proven Nikon interface and field software that is quick to learn and easy-to-use. Supporting both prism-based and reflectorless technologies, you can be assured of accurate repeatable measurements all day long to any point.

The distance measurements are fast and flexible with the Nivo M Series. Use the MSR1 & MSR2 keys to separately configure different prism or reflectorless measurement parameters, eliminating time switching between measurement modes. Nivo M Series field software highlights include:

- A complete set of CoGo functions
- Simple data management of files
- Quick-coding for convenient one-button data collection of point features and your raw target data.

The ultimate in quality for hardworking conditions all day, every day. The Nivo M Series is available in 2", 3" and 5"*** models to meet your specific accuracy needs.

* Objects with high reflectivity (90%).

** Low temperature model available.

NIVO™ C Series

- Survey Pro software onboard
- Windows CE touch-screen
- High quality Nikon optics
- 1", 2", 3" and 5" angle accuracies
- Prism and reflectorless measurements
- Easy-to-use 2nd face keypad
- Hot swappable batteries
- Compact, rugged, and lightweight
- Cable-free Bluetooth®
- Optional laser plummet

Nikon's next generation total station is the Nivo™ Total Station, available in two exciting lines: the Nivo C Series and Nivo M Series. Both of the Nivo series are the absolute leaders for go anywhere measurement tools. Compact in size and lightweight, they are convenient to carry over long distances. All Nivo models are supported with legendary Nikon high clarity optics, allowing clearer images in bright and low light conditions, making measurements easy and reducing eye stress.

The fast, long range EDM measures in both prism and reflectorless modes. All models measure precisely to objects up to 300 m away without the need for a prism*. Nivo models come standard with a traditional optical plummet which can be upgraded to a laser plummet. All models include a lumi guide for stakeout assistance.

The Nivo C Series is designed with a feature-packed Windows® CE touch-screen interface. Field application software functions are supported by the world class Spectra Precision® Survey Pro™ field software for all your surveying and construction measurement needs.

All Nivo C Series solutions are designed with high productivity in mind, including a dual face display for efficient high precision angle and distance measurements. Work all day long with endless power using hot swappable batteries, you'll never need to worry about interrupting your workflow to change a battery again.

To assist you with the multitude of data needs of the 21st century, the Nivo C Series includes:

- Support for USB memory sticks
- Wireless cable-free Bluetooth connections to external data collectors
- USB High-speed data transfer port

The Nivo C Series is available in 1", 2", 3" and 5" models to meet your specific accuracy needs.

* Objects with high reflectivity (90%).

Ranger 3 series

- Spectra Precision Survey Pro software
- Large, bright, sunlight readable color VGA screen
- Meets MIL-STD-810G standards
- IP67 rating
- SDHC card slot and USB connections
- 30+ hours rechargeable battery
- Windows Mobile 6.5
- Integrated Bluetooth, Wi-Fi, Compass and GPS

The third generation Spectra Precision® Ranger™ Data Collector offers a large bright touch-screen, full alpha-numeric, easy to operate, keypad, and is packed with the features surveyors depend on. Built rugged, it meets rigorous MIL-STD-810G military standard for drops, vibration, humidity and extreme temperatures, and with an IP67 rating, it's designed to keep your investment and your data safe. The Ranger features Survey Pro and Windows Mobile 6.5, with the capability to run the mobile version of all your favorite programs including Excel and Outlook. Integrated Bluetooth capabilities let you connect to field equipment without cables. The Ranger 3 comes standard with 8 GB of onboard memory for storing data. Move your data fast and easily using the SDHC card slot, Bluetooth, USB cable, or USB memory stick. Choose from three different models of the Ranger with the features that best suits your needs and your budget. They're all power-packed, so there's no wrong choice.

Nomad 900B/LD/XC

The Nomad™ data collector has the power and capability to help you do even more in the field. The Nomad is extremely rugged, meeting rigorous MIL-STD-810F and IP67 standards for water and dust. Featuring an 806MHz processor, the Nomad also includes 128MB of memory, a long-life 5200 mAh lithium-ion (Li-Ion) battery, a daylight-readable full VGA display, integrated Bluetooth, a numeric keypad and an easily accessible SDIO port under the top cap. All units come standard with Windows Mobile® 6.1.

Choose from the following models:

The **900B** has a CF slot, 512MB of Flash storage and all the above features.

The **900LD** has 1GB of Flash storage plus integrated 801.11g and integrated mapping grade GPS.

The **900LD** replaces the CF card slot in the top with a USB host port.

The **900XC** has an integrated 5 Megapixel camera and WWAN (GSM/GPRS/EDGE quad band modem).

Standard accessories include;

- AC charger
- USB data cable
- Hand strap
- Package of two screen protectors
- Stylus pen
- Rechargeable Li-Ion battery module
- Nylon carry case
- Stylus lanyard
- CD-ROM

Software available on the Nomad includes;

- Survey Standard
- Survey Pro
- Survey Pro Robotics
- Survey Pro GNSS
- Survey Pro Max

Available only in Grey color.

Twelve month **Extended warranties** are available up to a maximum of four.
